## **InflamEX**

### **Where other formulas fall short; InflamEX excels because:**

- ✓ InflamEX increases blood circulation within and around the organs most affected. This formula includes flavones that increase circulation within and around body tissue, enabling increased tissue strength.
- ✓ The herbs in our formula are properly combined for maximum benefit and relief.
- ✓ InflamEX balances the engagement of the immune system, preventing an autoimmune response.
- ✓ Some herbs in our formula specifically combat the proliferation of the various forms of inflammation.
- ✓ Fulvic trace minerals in our formula provide nutrients to the areas in the body where they are most needed. These trace minerals are rich in fulvic acids, the world's most powerful chelators. No other inflammation formula contains Tracite from our privately owned fulvic acid mine.
- ✓ Enzymes speed up the delivery of nutrients and herbal constituents within the body.
