

Thyroid (Hypo) Wellness Protocol (Item #7308)

A Healthy and Effective Hypo-Thyroid Support Program

Take These Products Until the Desired Affect is Achieved

For Hypothyroidism - Products included in this wellness protocol are:

1. Kelp and Dulse #4003 – A natural source of Iodine and other trace minerals
2. Brilliance #4017 – Contains herbs which will feed other glands.
3. Vitamin E #5071 – Plant-derived natural source with mixed Tocopherols
4. Mag/Cal #2008 – Feeds the para thyroid. It has a balancing effect on the thyroid.

Product Overview

Kelp and Dulse is seaweed that contains Iodine, Alginates (a polysaccharide in Kelp) and Carrageenans (a polysaccharide in Dulse). A great natural source of Iodine and other trace minerals, this formula can help insure healthy glandular functions and nutrition when used on a regular basis.

Brilliance – Supplies the thyroid with important trace elements essential for optimum cellular function. It is also a super delivery system for other nutrients. The herbs found in Brilliance have a neutral energy well balanced in its Yin & Yang properties.

Vitamin E – Vitamin E is a potent antioxidant that helps protect cells from “free radical” damage. Antioxidants are extremely important in the prevention of heart disease, cancer and diabetes. The most natural form of Vitamin E available is d-Alpha Tocopherol (not to be confused with dl-Alpha). Universal Formulas Vitamin E is a plant-sourced blend of Tocopherols including d-Alpha, d-Beta, d-Delta, and d-Gamma. This unique, all natural blend makes this product one of the most complete and natural forms of Vitamin E available.

Mag/Cal – Feeds the para thyroid and has a balancing effect on the thyroid. Magnesium is needed for more than 300 biochemical reactions in the body. It helps maintain normal muscle and nerve function, keeps the heart rhythm steady, supports a healthy immune system, and keeps bones strong. Magnesium also helps regulate blood sugar levels, promotes normal blood pressure, and is known to be involved in energy metabolism and protein synthesis. When Magnesium and Calcium are combined they work in synergy with each other for optimal performance.

Dosage Recommendations:

Kelp and Dulse: 3 vegi-capsules with each meal
Brilliance: 2 vegi-capsules with breakfast and lunch
Vitamin E: 2 softgels with breakfast
Mag/Cal: 3 vegi-capsules before bed

**Please DO NOT modify levels of any prescribed medication
without first consulting your physician.**
